EXPERIENCE

Senior OneStream Consultant

December 2019 - Present

Definitive Logic (Acq. by Carlyle Group 09/2023)

Arlington, VA

- Lead developer: cross-project tools and standards to scale practice operations
- Delivered both internal and client-facing trainings, demos, and conference talks
- Supported OneStream application development, contract proposals, and technical interviews
- Supported growth from small business, to big business, to acquisition by Carlyle Group

Contract - US Army: *Resource Manager's Workspace (2022-present)*

- Established project development standards and naming conventions, wrote reference guide
- Designed, built, and implemented metadata generators to accelerate OneStream development
- Wrote engine to generate and adjust data for unit, integration, and end-to-end testing
- Recorded and edited training video library for end users, served as SME for training manual
- Managed onboarding and orientation for new team members

Contract - US Department of Treasury: *Global Standard Model (2021-2022)*

- Led requirements gathering, training, and development for *Reconciliations Manager* solution
- Assisted development of extensible reports, project documentation, and level-of-effort estimations

Contract - US Department of Homeland Security: *PPBE OneNumber (2019-2021)*

- Managed server health and application maintenance for three development environments
- Assisted development of Congressional Justification books and Monthly Obligation Plan

Chemist

September 2016 - November 2019

Oberlin College/NIMH

Oberlin, OH/Bethesda, MD

- Studied transport mechanisms in spontaneous solid-state cocrystal formation
- Synthesized and characterized novel ligands for PET diagnostics, optimized reaction pathways
- Standardized research methods and wrote data visualization code
- Presented research results at three conferences, three lecture series, and one briefing session
- Publications: doi.org/10.2967/jnumed.119.235143, doi.org/10.1186/s13550-023-00975-6, doi.org/10.1007/s10870-022-00922-8
